Subject: PFOA Public Meeting Aug 30, 2016

Dear Judith Enck, EPA Region 2 Administrator,

The news outlets reported that no EPA Representative was at the NYS Senate Aug 30 public hearing examining PFOA drinking water contamination in Hoosick Falls and Petersburg, NY area. I do not know if this is correct.

I am not a resident of either community, but am concerned if your agency was not present to address residents' concerns about the long term effects of PFOA on their children. I have two granddaughters that are 7. What assurance can you give me that where they live [Clifton Park, NY area] is not affected now. Maybe they are, but don't know it. What are the short and long term effects of PFOA on our children, if any?

Was the EPA at the above referenced hearing? If not, why wasn't the EPA there? You are sending the wrong message to not only Hoosick Falls and Petersburg, but to all of us if your agency was not there yesterday.

With kind regards,

Tom Mithen
